

PEEYUSH TIWARI

Aspiring Software Developer | Technology Enthusiast

📍 Delhi, India 🌐 GitHub 🔗 LinkedIn 🌐 Portfolio

Professional Summary

Motivated with strong passion for technology and software development. Focused on building expertise in programming, web development, and database management. Committed to continuous learning through hands-on projects and coding challenges. Currently maintaining a 100-day coding streak on LeetCode, strengthening algorithmic thinking and problem-solving skills.

Education

Vivekananda Institute of Professional Studies

Bachelor of Computer Applications (BCA) *Delhi, India*
Aug 2024 – Jun 2027

- Focus: Computer Science and Information Technology

Experience

Web Developer (Freelance)

E-Cell VSIT

Oct 2024 – Jun 2025

West Delhi, India (Hybrid)

- Built responsive web interfaces using HTML and CSS with emphasis on clean structure and usability
- Implemented interactive frontend features using JavaScript
- Developed backend functionality using Node.js for server handling and basic API integration
- Worked on full-stack development workflows and practical project deployment

Teacher (Part-time)

Sumit Tutors

2023 – Present

Delhi, India

- Provide educational instruction and mentorship to students
- Develop strong communication and teaching skills
- Manage academic content delivery effectively

Technical Skills

▷ Programming Languages

Java , Python, C

▷ Web Development

HTML, CSS, JavaScript

▷ Backend & Database

PHP, MySQL, PHPMyAdmin

▷ Core Competencies

Problem Solving, Algorithms, Data Structures, API Integration, Project Management

Projects

Currency Mate

March 2025

- Real-time currency converter with live exchange rates from ExchangeRate API
- Features elegant UI with responsive design enabling seamless conversion
- Built using HTML, CSS, and JavaScript
- *Technologies: JavaScript, HTML, CSS, API Integration*

Book Kart

- Web-based online bookstore with browse, purchase, and management features
- Developed with PHP backend and HTML/CSS frontend
- Implemented PHPMyAdmin for comprehensive database management
- *Technologies: PHP, MySQL, HTML, CSS, PHPMyAdmin*

100 Days of Code Challenge

Ongoing

- Daily commitment to solving LeetCode problems on data structures and algorithms
- Completed: Remove Duplicate Letters, Contains Duplicate, Rotate Array
- Developing pattern recognition and optimization skills through consistent practice

Certifications

Migrate MySQL Data to Cloud SQL

Google Cloud (Sep 2025)

Certificate of Excellence in Daily Quiz

Unstop (Sep 2025)

Database Migration Service Skill Badge

Google Cloud

+13 additional certifications

Achievements

Maintaining 100-day coding challenge streak on LeetCode

500+ professional connections on LinkedIn

Active tech community member with consistent engagement

Languages

▷ **English:** Professional Working Proficiency
